

## REMARKS

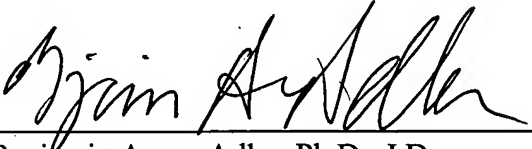

Applicants submit that the paragraph added to the specification is only a recitation of the results shown in Figure 2A, lanes 7-10. The specification describes what complexes were run on the gel using SDS-PAGE for Figure 2A in the Brief Description of the Drawings (pg. 12, ll. 12 to pg. 13, ll. 9). Example 6 to which the paragraph was added also describes the process and the results obtained for lanes 1-6 of the same gel (pg. 40, ll. 3 to pg. 41, ll. 21). Figure 2A depicts the autoradiographed gel and identifies what is in each lane.

Applicants further submit that the sentence inserted before the first complete sentence on line 1 of page 43, is a rewording of the sentence in the Brief Description of the Drawings generally describing what is shown in Figure 2B (pg. 13, ll. 10-11) to provide an introductory sentence to the paragraph. No new matter is added in either amendment.

Applicants enclose herewith a copy of the Formalities Letter. Applicants believe no fees are due, however, should this be in error, please debit any appropriate fees from Deposit Account No. 07-1185.

Respectfully submitted,
